

Wagoner Health

Dear Friends:

Welcome to our hospital's website. Our mission is to provide quality healthcare with courtesy and compassion. It has been said that the greatness of a hospital is most accurately measured by the compassionate actions of its staff. I am grateful to serve with so many wonderful associates who are united by our common bond of serving others. Our staff strive to make a meaningful difference in the lives of our patients and their families.

While the post-pandemic era continues to pose challenges for the hospital industry, our passion and commitment guides us to tackle even the toughest of issues and advance healthcare in bolder and brighter ways. I have found that our best selves shine through when times are tough. 2022 has served as a bridge to our future. We are grateful to be a part of our community. Serving the healthcare needs of our area is our privilege – and our responsibility.

Warmest wishes for a safe and healthy 2023. We are here for you, should you need us.

To your good health,
Jimmy Leopard, FACHE
Chief Executive Officer
