

# Wagoner Health

Dear Friends:

Welcome to our hospital's website homepage. Our mission is to provide quality healthcare with courtesy and compassion. I am proud to be associated with so many caring individuals who strive to fulfill our mission day in and day out. Wagoner Community Hospital is a great facility in which to give and receive care.

As the COVID pandemic has continued in this past year, we have witnessed both the marvels of science and the fragility and strength of our own humanity. We will never lose sight of our experiences as we have been forever changed by them. Yet through it all, we were reminded of the depth of our relationships and our connections with each other. As we move into 2022, we know our courage, agility and collective strength will carry us through the changes ahead. I am grateful for the many heroes on our healthcare team who have endured the challenges of the pandemic and stepped up to fulfill our mission in stressful times.

Warmest wishes for a safe and healthy 2022. We are here for you, should you need us.

To your good health,  
Jimmy Leopard, FACHE  
Chief Executive Officer
